## Doorways and Passages on Our Lenten Journey

Doors and Passageways provide space for our comings and goings. They are a beneficial part of our lives, yet we rarely notice them unless our arms are too full or we've forgotten our keys. Doors and Passageways give us sanctuary, provide security and allow for privacy. We can use them as barriers to shut out or thresholds to welcome in. This Lenten Series will explore opportunities to open the doors and passageways of our authentic selves and wonder at the God who dwells within us all, gracing us with the power to reform, grow and share Christ's love for the world!
